6 Series Fullview Interchangeable Storm Door in Black.

THIS BROCHURE WAS MODIFIED BY ARDMOR Inc, some of the series was removed because ARDMOR Inc doesn't install them, but they are available at Andersen

QUALITY, CRAFTSMANSHIP, STYLE AND INNOVATION

Andersen® storm doors offer style options to enhance and complement the entryway of any home. Designed with ease of use in mind — whether buying, installing or owning — Andersen offers a solution to meet your needs.

A Style for Every Home

Our storm doors are designed to make your life easier, with a variety of styles, options and features.

Fullview Interchangeable

Let in the maximum amount of light and air while beautifully framing your entryway. (See page 4)

Fullview Retractable

Let in an abundance of light while benefiting from convenient, anytime ventilation without removing a glass panel. (See page 6)

The Andersen Difference

Andersen storm doors offer many innovative features designed to make them not only easy to use, but also easy to install.

Quality Hardware

Customize your storm door with a variety of hardware options. Select a finish and style that complements the look of your home.

Reinforced Corners

Built-to-last* construction featuring reinforced metal corner brackets helps the door corners stay square over time for long-lasting smooth operation.

Quick Change

Change from insect screen to full glass panel **in less than a minute** with a simple flip of the handle.

Retractable Insect Screen

Enjoy convenient anytime ventilation with a retractable insect screen that rolls into the door frame and out of view when not in use.

Time-Saving Installations

Andersen has taken the hassle out of installing a storm door. Install with confidence with our easy and convenient installation systems.

SplineLoc® Insect Screen

Has 3X more holding strength than our standard insect screen and a minimal center mullion bar for maximum durability.**

Hardware with Timeless Beauty

A variety of hardware options to enhance your home's décor — from traditional and classic to simple and contemporary — Andersen has the style to match your needs. See the following product pages for availability.

HARDWARE FINISHES

*Visit andersenwindows.com/warranty for details. **Image is for demonstration purposes only. Do not stand on insect screen. Standing on the insect screen may damage the product and is not covered under the Limited Lifetime Warranty. †Oil Rubbed Bronze is a "living" finish that will change with time and use. Printing limitations prevent exact finish replication. See your Andersen supplier for actual finish samples.

10 SERIES FULLVIEW INTERCHANGEABLE

Ventilation

Our Innovative Quick Change System allows you to go from full ventilation with our SpineLoc® Insect Screen to full glass in less than a minute with a simple flip of the handle.

Carefully store the panel when not in use.

Operation

For advanced operation, this door includes our new SmoothControl Plus™ Close System. The built-in dual closer system allows for more consistent latching and a smoother close motion. It also has an easy-to-use hold-open feature and simple close speed adjustment.

CLOSE SYSTEM

- 50% stronger than standard dual closers*
- Commercial-grade steel closer arm
- More consistent latch
- Easy to use hold-open feature
- Simple close speed adjustment

*Consistent complete door closure when compared to standard pneumatic dual closers.

Security

Built-in keyed deadbolt for added security.

Choose laminated glass for added security. Doors with laminated glass include a 3-point lock built into the top, middle and bottom of the frame and shatter-resistant laminated glass.

Note: Doors with laminated glass are not compatible with an insect screen.

Glass Options

- Clear Glass
- Low-E Clear Glass
- Insulating Glass
- Low-E Insulating Glass
- Laminated

Performance

Thick aluminum frame (1 1/2") with reinforced corners helps the door stay square over time for long-lasting smooth operation.

Premium double-layer weatherstrip provides added energy efficiency.

SmoothControl Plus™ close system performed better in wind durability testing.

Installation

See page 16 for details.

HARDWARE FINISHES

10 Series Fullview Interchangeable: **10FV**

*Hardware sold separately.

**Nickel, matte black, metallic stone and brass handle sets feature TarnishGuard™, a protective coating that helps maintain their attractive finish for years.

†Antique brass, brushed dark nickel, brushed French gold, oil rubbed bronze and Venetian bronze are "living" finishes that can change with time and use.

Printing limitations prevent exact color and finish replication. See your Andersen supplier for actual finish samples.

8 SERIES FULLVIEW INTERCHANGEABLE

Ventilation

Snap out/in retainer system allows for converting your door from weather protection to full ventilation with interchangeable glass and insect screen panels.

Carefully store the panel when not in use.

Glass Options

- Clear Glass
- Low-E Clear Glass
- Curved Etching Glass
- Curved Nickel Glass
- Diamond Lights Glass
- Etched Glass
- Regency Glass

Security

Built-in keyed deadbolt for added security.

Performance

Thick aluminum frame (1 1/2") with reinforced corners helps the door stay square over time for long-lasting smooth operation.

Premium double-layer weatherstrip provides added energy efficiency.

Operation

Dual-closers for added durability.

Push-button closer makes it easy to keep the door open while keeping your hands free.

Installation

See page 16 for details.

INSTALLATION SYSTEMS

We're taking the hassle out of installing a storm door, so there's no second-guessing. Just a job well-done the first time.

RAPID INSTALL 1

Our **Rapid Install 1** door system is the easiest installation option available in the market today. It was designed with the DIY audience in mind. We prehang the door so there is no cutting, minimal drilling and virtually no measuring required. We cut the Z-bars to length, assemble them on the door and drill the handle holes so you don't have to. Simply take the door out of the package and set it in the opening. The entire install takes less than an hour.*

RAPID INSTALL 2

Our **Rapid Install 2** door system offers a universally handed option. It was designed with the DIY audience in mind. We provide an unassembled door with Z-bars cut to length to save time on the installation. The process takes less than two hours, and no cutting is required.*

PRO INSTALL P

Our **Pro Install** door system was designed with the professional installer in mind. We provide an unassembled door with a Z-bar of 81" that can be cut to length. An adjustable U-channel sweep makes necessary adjustments easy once the door is installed. The handle holes are predrilled to save time on the job, and our twist-to-lock hardware installation makes for a quality, easy install.*

Installation by Door Type

FULLVIEW INTERCHANGEABLE & FULLVIEW RETRACTABLE INSECT SCREEN			¾ LIGHT & ½ LIGHT PANEL VENTILATING		
10 SERIES	8 SERIES	6 SERIES	10 SERIES	8 SERIES	6 SERIES

*Actual tools required will vary between storm door models. See installation guide for details.

MEASURING GUIDE

1 Check to ensure door opening and trim allow enough space for a storm door.

DIMENSION A: Minimum ¾" width flat trim surface required

DIMENSION B: Minimum 1" trim (brickmould) depth required

DIMENSION C: Minimum of 2½" door frame (jamb) depth required*

*Depending on the depth and location of your entry door handle set, additional clearance may be needed.

2 Measure door opening in order to determine the size storm door you need.

RECORD YOUR SHORTEST WIDTH MEASUREMENT:

W:

Measure the width of the door opening at the inside face of exterior trim on each side at top, center and bottom and record the shortest measurement.

(See measure points W1, W2 & W3 in the illustration at right)

RECORD YOUR HEIGHT MEASUREMENT:

H:

Measure for the height from the sill to the underside of the brickmould at the top.

(See measure point H in the illustration at right)

3 Determine the size you need based on the door opening measurements and the storm door model that is selected.

STANDARD DOOR SIZE WIDTH RANGES:	30"	32"	34"	36"	STANDARD DOOR SIZE HEIGHT RANGES:	80"
